VILLAGE VOICES

16mm, colour, 12 mins.

The United Nations, in a series of short films called "Making a Difference", honours men and women who have chosen to work a long way from home, to try and make the world a better place.

"Village Voices" is about Ole Aabenhus from Denmark, living in Sri Lanka with his young family, while working on a community radio project. Ole Aabenhus organises rural radio, a co-operative project between UNESCO and the Sri Lankan Broadcasting Corporation.
